MATCHING

Take a look at the prehistoric marine creatures below and draw a line to match the modern day animal it most resembles!

Did you know that all of these prehistoric marine creatures were the **LARGEST** of their kind? Well, at least that we've discovered so far!

PREHISTORIC

Archelon

Deinosuchus

Livyatan

Megalodon

MODERN

Sperm Whale

Great White Shark

Crocodile

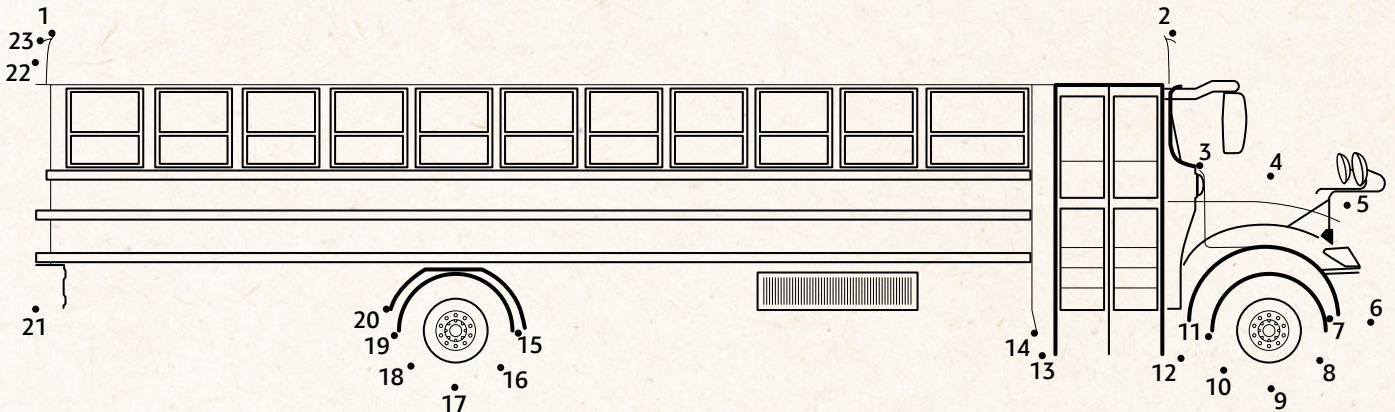

Sea Turtle

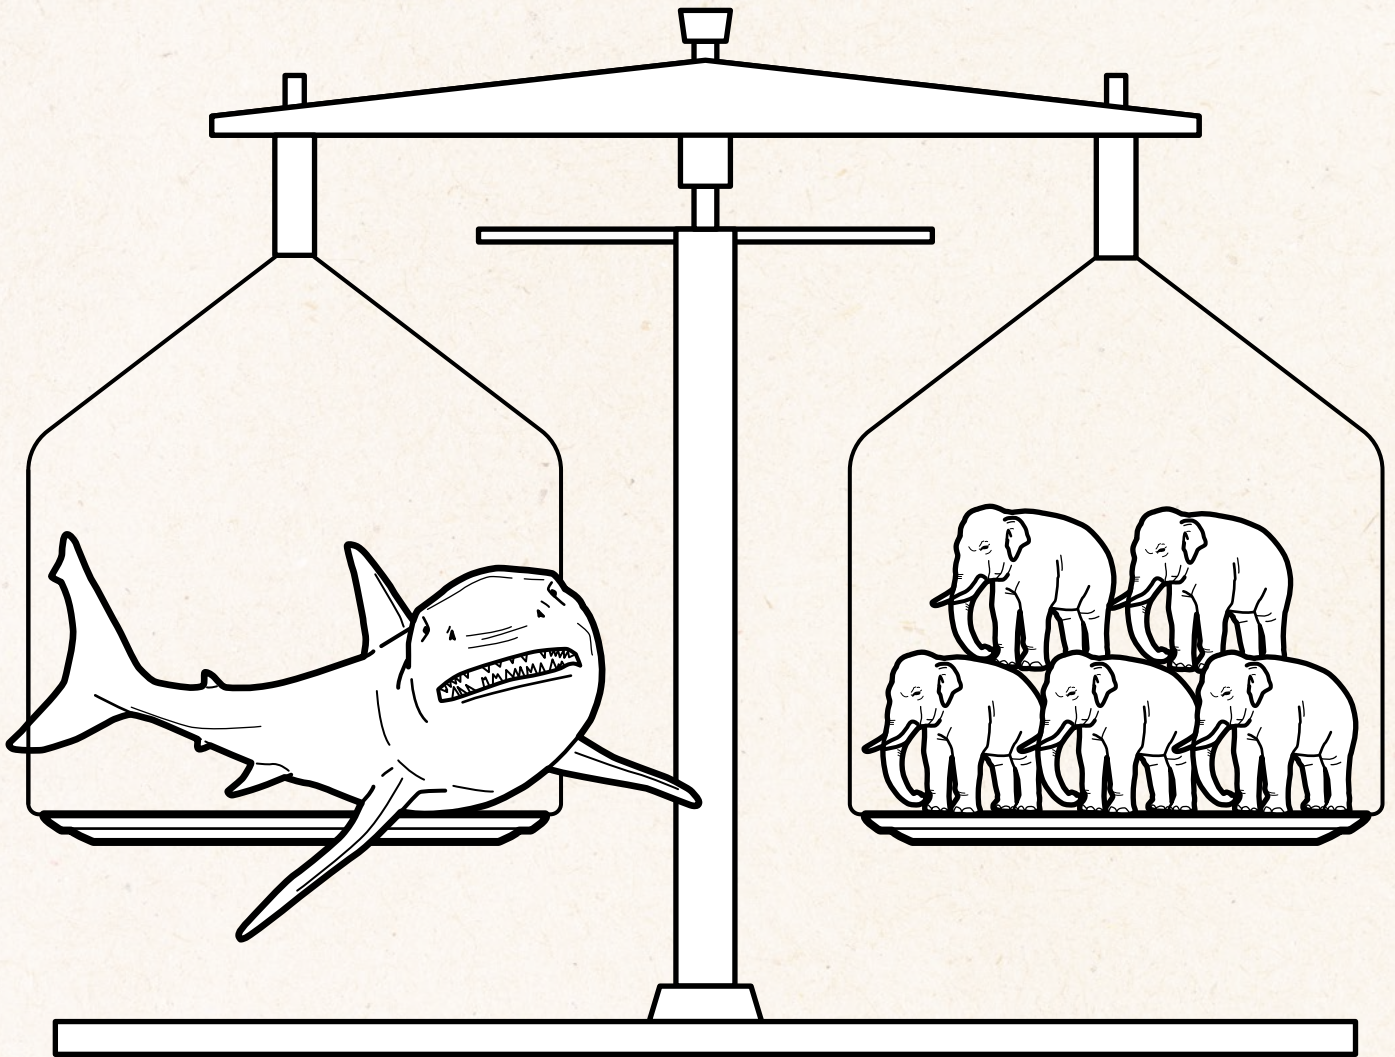

CONNECT THE DOTS

How long was the Plesiosaur? Connect the dots to find out! Then, have fun and color it in!

COUNT & COLOR

The Megalodon is the largest shark ever discovered! Count how many elephants weighed the same amount as a Megalodon, and then color them all in!

1 Megalodon = ____ elephants

WORD SEARCH

Read the fun facts to learn more about prehistoric marine creatures, and then find words from those facts in the word search!

The Megalodon had a **BITE** strong enough to crush a **CAR**!

The Livyatan was an **APEX PREDATOR** — that means it was at the top of the food chain and undefeatable. No other animal could eat them!
