MATCHING

Take a look at the prehistoric animals below and draw a line to match the modern day animal it resembles!

Paleontologists don't just study dinosaurs, they study the history of life on Earth using fossils, which includes other prehistoric creatures!

PREHISTORIC

Meganeura

Mammoth

Smilodon

Brontotherium

Titanoboa

MODERN

Tiger

Rhinoceros

Boa Constrictor

Elephant

Dragonfly

MAZE

The Titanoboa was the biggest prehistoric snake of all time. They used their tongues to smell for food! Help the Titanoboa find its way through the maze to capture some fish to eat.

Its name means "Titanic Boa" because titanic means really big!

START

Titanoboas were not poisonous!

Titanoboas had heat vision!

FINISH

CONNECT THE DOTS

The Maganeura is one of the largest insects of all time. They looked like dragonflies but WAY larger! Connect the dots to find out how many wings they had, then color them in!

WORD JUMBLE

Unscramble the letters to form the word that completes the sentence.

ADSD

Smilodon ____ would protect babies from predators while the moms would hunt for food.

NKIEF

The Smilodon had really sharp teeth. Its name means ____ Tooth!

AHED

A Smilodon tooth was as big as Dana's ____!

COLORING

Mammoths lived in the ice age! Adult mammoths would surround baby mammoths to protect them.

COLORING

Dad Smilodons protected babies while the moms hunted!

DINO
DANA
